Summary

Full-stack developer skilled in **React, Node.js, and MongoDB**, with hands-on experience building scalable web applications, optimizing APIs, and creating responsive UIs. Strong at **integrating third-party APIs** and deploying cloud-based solutions with **CI/CD pipelines**.

Skills

Frontend: React.js, Next.js, HTML5, CSS3, JavaScript, TypeScript
Backend: Node.js, Express.js, REST APIs, WebSockets
Database & Cloud: MongoDB, PostgreSQL, SQL, Vercel
Tools & Others: Git, CI/CD, JWT

Projects

Personal Portfolio Website – React, Vercel

- Built and deployed a **responsive portfolio** with CI/CD integration and SEO optimization.
- Improved performance using **code-splitting, lazy loading, and meta tagging**.

Info Tracker Application – React, APIs

- Engineered a **real-time tracker** integrating multiple APIs with robust error handling.
- Enhanced UX through **responsive data visualization** and reliable state management.

Random Project Generator – TypeScript

- Developed a **project idea generator** with modular, reusable code and strong type safety.
 - Demonstrated ability to convert abstract logic into **clean, production-ready code**.
-

Education

St. Francis College, Bengaluru University
Bachelor of Computer Applications (BCA) | Aug 2024 – Present
